REF: APPLICATION 09/677 583  
MULTIMISSION TRANSONIC HULL AND HYDROFIELD  
Attorney Docket 1186-001

PAGES: 14 (including this one)

Dear Mr. Swinehart:

Pursuant your recent telephone message and our subsequent telephone conversation, I am pleased to fax again our Supplementary Amendment for Application 09/677 583, dated March 13, 2003, previously faxed to the number you gave me at the March 7 interview, namely (703) 872-9326.

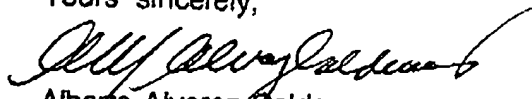

I would also like to confirm that the original of the above Supplementary Amendment was mailed March 13, 2003, via United States Postal Service - Express Mail, bill # ER 149388478 US, to the following address:

Commissioner of Patents and Trade Marks  
Mr. E. Swinehart  
Examiner, Art Unit 3617  
Washington D.C. - 20231

As discussed in our conversation, I appreciate your indication that I can file a Supplementary Amendment for patent application 09/672 190 with the generic TH claim, for surface boats, which we reviewed during March 7, 2003 interview. This claim is not being pursued in the Supplementary Amendment for the surface-subsurface TH boats covered by application 09/677 583.

I trust that the above fax will be received promptly.

Yours sincerely,

  
Alberto Alvarez Calderon
